

Prison to Employment Connection

A Better Way Out

FACT SHEET: P2EC

1

We partner with over 50 Bay Area employers and service providers (P2EC Partners.)

2

P2EC Partners come to the prison to conduct job interviews with program participants, provide feedback, support and connections for employment.

3

We are the **only** program of the 35 California prisons that connects the currently incarcerated, face to face, with employers before they are released.

4

P2EC Partners include Animal Care, Bakery, Construction, Culinary, Health Care, Hospitality, Janitorial & Maintenance, Screen Printing, Restaurant, Technology and Transportation.

5

Data collected from employer assessments report that 99% of our graduates interview as well as, or better than, job candidates they typically interview.

6

85% of our graduates interviewed **BETTER** than people the employers were interviewing on the street.

7

Upon completion of the program, most participants experience hope and a new sense of promise for the future.

8

Our graduates have a 1% recidivism rate compared to the rate of 65% in the state of California.

9

Scott Kernan, former Secretary of the California Department of Corrections and Rehabilitation, has observed and is supportive of our program.

10

To date, we have successfully graduated 298 people from the Prison to Employment Connection program.
